Director Message

"LOVE IS OUR REASON FOR BEING AT CHILDREN'S PARADISE"

It's my pleasure and privilege to serve as the Director of Sanskaar Schools Pvt. Ltd. not only because it's my passion but also because I enjoy the company of my dearly loved students and talented and zealous team who keep me energized all the time.

Sanskaar Play School is not just ONE More play school group in the already long list of educational institutions in India", but it is ONE group which has made a great difference by its quality. Our children represent our hopes and dreams. As a parent, you certainly want the best for your child and we are indeed happy to be working with you to ensure that they are given the right knowledge to face future challenges. The Management, Parents, Students and the Teaching Fraternity are a team and complement each other's efforts. Education is not just a process of giving knowledge for a high profiled job but a lifelong process which creates an understanding of moral and ethical values to guide and make our students morally upright citizens of the country.

We try to create an atmosphere of reverence for education and a healthy environment where academics, sports and co-curricular Facilities mould our students and motivate them to be the brightest and the best. In order to do this, the school works towards inculcating certain values in the students in order to enrich their mind and spirit and also to develop essential moral attributes like truthfulness, courtesy, generosity, compassion, justice, love and trustworthiness in them. The students are taught to study in an atmosphere of love and unity where each student sees himself or herself as a member of one global family, free from the prejudices of ethnicities, nationalities, class and religious dogmas.

"If a plant is carefully nurtured by a gardener, it will become good, and produce better fruit. Therefore, children must be given a good training from their earliest childhood".

This is what we at SANSKAAR are striving to do, Our role is identical to that of a gardener and we strive to perform this role to the best of our ability by nurturing these 'seeds' at school so that they bear the "Best Fruits" in the years to come.

I am very grateful to each and every member of the SANSKAAR Fraternity. Our Staff who know very well how to synchronize and harmonize with our process of growth. Our Students who constantly show by their performance and conduct that it makes a difference to be a student of Sanskaar; and last but not the least Our Parents whose trust inspires us to move ahead ...!!!

We wish you and your child a very rewarding experience at Sanskaar....!!!

With all my love, best wishes and blessings to our dear children!

Mr. RAJ CHAUDHARY

Sanskaar is not just ONE More play school group it is one group which has made a great difference by its quality

Sanskaar provides the highest standards of Early Childhood Education. We understand Early Childhood Education. We have listened to parents, teacher and children while developing our programs. Research has shown that early years learning play a crucial role in the development of the intellect, self-esteem and self-confidence. We have written our curriculum, designed our facilities and trained our facilitator according to these findings. We know that the first five years of a child's life are critical learning years for intellectual development. We have developed interesting and intelligent, in-house, training modules for our educators and staff. Regular up-gradation of methodologies and systems is undertaken by involving experts on the subject/field. Training is an ongoing process at Sanskaar.

PHILOSOPHY

Love, Learning and Understanding, is the meaningful words that make us believe in the proper intellectual development of the child. It is on these words that our Philosophy is based. At Sanskaar, we believe that we need to be a vital extension of your family, sharing love and concern for your children and work together to playfulness. Sanskaar is intrinsically a space that has been well thought of both in its philosophy and methodology to bring about a radical change in the way childhood needs of children must be nurtured. A great amount of time, thought and research has gone into selecting/creating material and training staff. The idea being - to ensure that the philosophy and methodology mingle to a rhythm of a little one's needs to be loved and gently nudged to learn as they play.
